CSE-111 AWS Networking

1. Cloud Computing Fundamentals
2. AWS services and Basic Deployment
3. Virtual Private Cloud (VPC) Networking
4. Security and Access Management
5. Elastic Compute Cloud (EC2)
6. Elastic Block Store (EBS)
7. Simple Storage Service (S3)
8. Relational Database Service (RDS)
9. Elastic Load Balancing
10. Cloud Watch
11. Cloud Formation
12. Elastic Beanstalk
13. Lambda
14. Cloud Watch Logs
15. Cloud Trail
16. Simple Notification Service
17. Simple Queue Service
18. Cloud Front
19. Cloud Formation
20. Elastic Beanstalk
21. Lambda
22. Cloud Watch Logs
23. Cloud Trail
24. Simple Notification Service
25. Simple Queue Service
26. Cloud Front
